Kodiak Innovations - "Bumper Bullet"

- △ simple construction: all-weather thermoplastic with stamped aluminum end caps
- △ flexible and durable
- △ field installation in under 1 hour – attaches with rivets
- △ smoothes, organizes, and straightens airflow - reducing aerodynamic drag
- △ **improves fuel economy by 1% to 2 %** (1.76% in certified track testing to SAE J1321)
- △ lightweight - 9 lbs complete
- △ patent pending design
- △ **EPA SmartWay certified & verified** as a "1% or greater fuel savings" device

Simple, Common-Sense Aerodynamics for Affordable Fuel Savings
